

## FB80/FB80S Flavor Burst™

The Flavor Burst™ FB80 system is a revolutionary add-on that allows you to dispense a variety of flavors from your soft ice cream or thick shake machine, the system works by injecting concentrated flavouring throughout the product. The result is a fun, colorful swirl effect treat that will ensure repeat sales.

Attract kids and adults alike with a variety of delicious tastes -- chocolate swirl, coconut, black cherry, pineapple and raspberry to name a few.

### Features of the Flavor Burst™ system:

- Compact
- Easy to operate with microprocessor - controlled portions and 'syrup empty' warning
- Flavour has extended shelf life, - reducing wastage
- Just a few minutes to clean with a built in sanitising system.
- Will fit Taylor and other brands of soft serve machines.
- Twenty flavours to choose from
