## Soft Ice Cream Desserts

“We are unable to provide profit projections” says Jack Kam - Director, “as our ice cream is included in the price of our buffet menu, however we sell on average 300 meals a day with many of our customers choosing to have an ice cream. We operate for 364 days a year and assume 150 of our customers a day have an ice cream. That’s over 50,000 portions a year.” Jack says “Just work that out for yourself.
