

Bruce Arms

From previously selling around a dozen or so filled rolls each week, we have now increased our takings to over £500 per week on food in the first six months of having our TurboChef.

Testimonial

“Who would have thought we could produce fish and chips tasting as good as they do in a matter of minutes, without using a deep fat fryer. We have no waste and our food comes straight from freezer to our TurboChef oven. These ovens are ideal for a small business like ours”
