

Moccachino's

I chose the TurboChef conveyor oven for speed, quality of the finished products, compact size, it was smaller than other similar ovens, and the price versus TurboChef's competitors.

We are selling 10" adult and 6" kids Pizza's, from between £6.99 for the 10" size including toppings, and £1.99 for a kids Margarita Pizza. We are delighted with the speed, at 3 minutes for the 10" fresh dough Pizza, which is half the speed of our previous oven, and the finished quality is absolutely outstanding. I would recommend TurboChef ovens and Taylor UK to anyone
