

Berties Diner

I have been an existing Taylor soft ice cream machine customer for some time, and because of Taylors UK's standing in the market place I agreed to see a demonstration on a TurboChef oven, and readily admit to being pleasantly surprised with the speed of cooking and finished food quality, both of which convinced me to purchase a TurboChef oven.

I would highly recommend this oven, particularly as it has allowed me to add additional items to my menu, and what's more the profit from the new menu items has already paid for the oven

Jackie Deaves - Owner
