

Grubbs

I first saw Taylor Shake Machines being used in North America way back in 1972, and when I opened my first restaurant in 1978 I knew that I had to acquire one as they were used by all of the large American Fast Food Operator's, and since that first purchase I haven't looked back since, which has resulted in purchasing 7 Taylor Thick Shake machines over the years. In the main I sell Burgers, Chips and Thick Shakes, and if I didn't sell Shakes I wouldn't sell much of anything else – needless to say my Taylor Shake Machine is an integral part of my business
