

# Shaketastic

After a considerable amount of research we chose to purchase Taylor equipment as we were impressed the speed and efficiency of their response, and their knowledge of the market place which all helped enormously in assisting us to make the right decisions regarding the equipment. Taylor UK's aftercare service is rapid and attentive, noting that they are prepared to go the extra mile to ensure our operation runs smoothly, and to date because we have been so pleased with Taylor UK we have purchased 7 machines, a combination of model numbers C706 and C708's

Josh Kettle - Director
