Rollers Cafe

'The TurboChef 1618 conveyor is slim enough to fit front of house. Our customers can not only choose their own pizza toppings and see it prepared fresh, they can also see it being cooked in front of them. This adds a great element of theatre to our shop and reassures the customer that their pizza is being baked properly and not microwaved despite it being so quick!

It has improved our business tremendously. Having a quick, hot lunch offer has grown our customer base three fold and our sales revenue has grown by 50%.'

Abi Adetujoye - Owner
