

Janes Kiosk

We had been using a single flavour soft ice cream machine which could not keep up with our demands, but the problem seemed un-fixable as we only had a limited amount of power available in our shop.

We contacted Taylor UK and discovered that the Taylor 161 twin flavour soft serve machine could double our output whilst still only running on a standard 13amp plug.

The 161's twin dispense allows us to manage our queues far better now when it's busy...Purchasing a Taylor machine was the perfect move for us, we haven't looked back!

Jerry Real – Owner
