

R280

Frozen Food Dispenser

Fryer Baskets Sold Separately

ITEM No. _____

Model options:

R280 Frozen Food Dispenser

Standard equipment:

Hopper Capacity - 27.0Kg

Refrigerant - R290

2.4m Power Cord

Optional extras:

Fryer Basket

Hash Brown Rack

Features:

Stores frozen fries and dispenses directly into the fryer basket. Ensuring that the fries are always cooked from frozen, which results in improved product quality, consistency and yield.

Cooking from frozen helps reduce oil degradation from excess moisture and reduced product handling promotes good food hygiene.

Fast, consistent portion dispensing lets your staff work faster and more efficiently which increases productivity.

- ◆ **Easy-to-Clean** - The R280 is designed for simple daily cleaning of both the cabinet and refrigeration filter.
- ◆ **First-In-First-Out** - The R280 ensures good 'FIFO' maintaining freshness and product quality.
- ◆ **Practical** - Provides storage of up to six fryer baskets with flexible store configuration for left or right hand door opening.
- ◆ **Eco-Friendly** - Self contained environmentally friendly refrigeration system using R290-Propane with cold wall construction.
- ◆ **Dispensing** - Push button dispensing system enables the operator to fill one basket, then slide the next basket back into the fill position for rapid filling during busy service times.
An electronic weighing system allows for a portion-controlled fill level for the basket. The unit incorporates an inductive sensor to ensure proper basket placement prior to dispensing.
The R280 provides a visual indication when product in the hopper is low or empty.
- ◆ **Operation** - Operation of the R280 Frozen Food Dispenser is easily controlled by a power switch, dual portion control keys and a series of menu functions located on the operator control panel.
The LED control display is used for calibration, and system diagnostics. The dual series of portion control keys (left-side and right-side) are used to select the desired basket load weight and will flash to indicate to the crew that the hopper is empty.
