VITRO UNDER-COUNTER (4x 4 pint)

(Milk fridge requires separate power supply)

Standard equipment:

PSSR safety certificate

Starter pack cleaning chemicals

Optional extras:

Water filter kit

Features:

La Cimbali knows just how important every drink is for you and your customers. That is why the S30 is designed to guarantee a wide and varied range to satisfy every palate, always with maximum quality guaranteed.

- **10.4-inch touch-screen** display allows you to see different options on the drinks menu (pre-selection and Group Mode) and to customise images displayed by the machine (such as screen savers and during beverage dispensing). You can also assist the customer when choosing their drink with video clips and animations.
- **TS4 TurboSteam Cold Touch** (Semi-Automatic ONLY) the outer surface of the wand is cold before, during and after it emits steam. The wand is coated with a special insulating, non-stick material. This makes the TS4 wand easy to clean and prevents milk residue from sticking to it.
- **AWS automatic washing system.** The daily washing cycles are automatically managed by the AWS system. This innovative system provides thorough, efficient cleaning, ensuring maximum hygiene with just one touch.
- **Hoppers and solubles** - Dual 1.5 kg bean hopper and built-in soluble chocolate system. (Chocolate only available on CS models)
- **Integrated bi-directional Wi-Fi system** - You can remotely communicate with the S30 via the integrated bidirectional Wi-Fi system, which makes updating software, setting recipes and customising background images simple and intuitive. (requires Wi-Fi connection at point of installation)
- **Titanium coated grinders** - The Titanium grinders, which are made of K110 steel with a PVD coating, are very robust and designed to last for a long time. Another innovation is the PGS (Perfect Grinding System), which continuously monitors the coffee delivery parameters and automatically re-grinds and doses if necessary, so as to ensure consistency in delivery and optimal extraction quality.
